Product highlights

Real Flat Picture Tube

The Real Flat picture tube offers high contrast for natural colors and improved daytime viewing. With the revolutionary flat screen design, there is virtually no picture distortion, even when viewed from the sides. The flat screen technology reduces glare from ambient light, preventing eye fatigue.

Smart Picture

Smart Picture provides the optimum picture settings for color, brightness, saturation, contrast, sharpness, etc. to enhance your overall viewing experience at all times.

On Board CD/DVD/MP3 Player

Just press play on the integrated TV-DVD remote control and the Philips TV-DVD plays it all; DVD-Video discs, Video CDs, Super Video CDs, Audio CDs, Home recorded CDs and MP3 CDs.

Picture CD Playback

A Picture CD contains digital still pictures in JPEG format. Most Philips DVD players and recorders support playback of Picture CDs & home created discs as well as ones from photo shops.

10 Pages Smart Text

Fast access to your own programmed favourite text pages.

Sleeptimer

The Sleptimer automatically turns the TV off at a preset time of up to 240 minutes from the time the feature is activated. Sleptimer settings are programmed in 15, 30, and 60-minute increments.

Side Connections

Digital cameras and video games can be connected quickly and easily to video or stereo AV inputs. Connect your headphones (optional) for convenient private listening.
